

Change the Way You Listen to Grooveshark® with the Kit

Wirelessly connect your Android™ smartphone to any FM car stereo and add on-demand music through the Grooveshark Application (3 months free trial included). The Grooveshark Bluetooth Internet Radio Car Kit works in any car with a 12-volt charging outlet and an FM stereo.

The Grooveshark app (available for free download at: <http://m.Grooveshark.com>) is the world's largest on-demand streaming and music discovery service. With over 15 million songs and 30 million users, Grooveshark lets users search and play music, share songs with friends, and build cloud music libraries accessible on the Web, on smartphones with Grooveshark Mobile, and on other supported devices.

Bluetooth Handsfree Calling with Noise-Canceling Mic

Safely answer and make phone calls while driving. Quickly redial the last call made.

Wireless FM Transmitter with RDS

Wireless audio solution for every vehicle. Shows artist and title on RDS (Radio Data System) compatible factory radios.

USB Charger

Charge your Android smartphone.

Free Grooveshark Anywhere 3 Month Subscription

Bring over 15 million songs to your car's FM stereo without monthly fees.

Phone not included.

How It Works

1. Plug the Kit into your car's 12V adapter. Tune your car's FM radio to the same frequency shown on the Kit. The Kit automatically finds available FM frequencies at the touch of a button.
2. Pair your Android smartphone to the Kit through Bluetooth.
3. Download and install the Grooveshark Mobile application from your phone's mobile browser at <http://m.Grooveshark.com>. Stream your music and enjoy handsfree calls through your car stereo. Also listen to any other audio application on your phone.
