

Livio® Radio

More Music, Less Work.

Our Philosophy is Simple: We Love Radio. Really, it's the driving force behind our work. Like our products themselves, we're a hip and laid-back bunch. No frills. No crazy features. No cumbersome junk. We do our jobs so our customers don't have to and we find ways to bring online audio to more people, in more places.

We're proud of our products and our customers love them. Don't believe it? Google us. We dare you.

LV001 Livio Radio featuring Pandora®

The first device to feature Pandora's signature "thumbs up, thumbs down" buttons, the **Livio Radio featuring Pandora** makes the Pandora Internet Radio service accessible without a computer. The Livio Radio sets up in minutes and plays as a stand-alone radio, or connects to your home speaker system.

Access your Pandora account, or search for programming by genre, location or keyword to access over 20,000 Internet radio streams from around the world.

LV002 The NPR Radio by Livio

The world's first and only product dedicated to providing unparalleled access to NPR's exclusive programming. The NPR Radio by Livio allows users to search, find and bookmark their favorite NPR programming with the touch of a couple buttons. The radio sets up in minutes, requires no monthly fees or subscription and offers free access to over 20,000 internet radio streams from around the world.

CA001 Carmen Car Audio Player

Carmen is a portable Internet radio solution for the car. Carmen is PC and Mac compatible. It connects to a computer with the included USB cable. Carmen software records your favorite programming from more than 42,000 Internet radio streams around the world and saves MP3 files to listen to on the road.

Plug Carmen into any vehicle's 12-volt adapter and listen to the recordings on the car's stereo via the FM transmitter or auxiliary input. Customize your listening experience. The choice is yours.

IR001 Ira Internet Radio Adapter

Livio's Internet Radio Adapter (ira) connects automatically to any wireless Internet network without a computer and features over 19,000 stations from around the world. Users may filter by location or genre to find new stations, listen to NPR, favorite local channels, and on demand (Podcast) programming.

Car Internet Radio App for iPhone

The first and only mobile Internet radio solution optimized for use in the vehicle with two versions available now in the App Store.
