**Product Description**

**Bring Music into Your Vehicle with the Carmen by Livio**

The Carmen by Livio is the ultimate FM transmitter with AUX capabilities for anyone who wants to bring music (including MP3 files, Smartphone\*, and MP3 players) to the car or boat.

The Carmen is great for drivers who want music at their fingertips, and without monthly fees. In addition to the FM transmitter, the included software stores MP3s and records content from more than 45,000 AM/FM and Internet-only radio stations from around the world.

**Key Features**

- **Wirelessly connect your smartphone to your FM radio:** Connect your phone with the included cable to the Carmen. The Carmen will wirelessly transmit to your FM radio
- **Drag and drop MP3s directly into the Carmen:** Load your music into one device with the Carmen by simply dragging and dropping music from your computer before hitting the road
- **Record Internet Radio with built-in software:** Record over 45,000 stations and shows from around the world including music, news, sports and talk with bonus PC/Mac software that syncs automatically to the Carmen. Easy-to-use controls on the Carmen also allow the user to pause, rewind and skip through recorded content
- **Autostart software:** The patent-pending Carmen software now automatically launches once users connect the device to their Mac or PC so they can quickly begin to record content
- **Simple Interface:** The Carmen plugs into the vehicle's 12-volt adapter and features an LCD screen, large buttons and a pivoted design for use in any vehicle or boat
